HUNTED FOR TWO YEARS FOR ENTICING AWAY GIRL

Ivan, Heuple, also known as Frank White is in the Grand Traverse County jail held on a charge of violating the liquor law. And he is also year old girl, away two years ago,

Heuple had been arrested for violation of the liquor law and was out on bonds. His re-arrest came about when Kenneth Metz, an uncle of the girl by marriage to Dorothy LaBrash recognized him. Metz, who resides at Fairview is a mail carrier between Grand Rapids and Traverse City, and while making his route saw a man hiking along the road about seven miles out of Traverse City and as he passed him recognized him as the man for whom the family had been hunting for two years. He drove on to Traverse City and after unloading his mail notified police and they drove back and picked up Metz, who it is reported was evidently skipping his bonds. He was locked up in the Grand Traverse County jail and Tuesday Edlore La-Brash and other relatives drove over to Traverse City to further identify him as the man who had enticed the

e family had seen him since July 11th or 12th, 1929, when he and the girl left Grayling. He claims to have been in Traverse City during the summer of 1929, also 1930. He is reported as telling conflicting stories as to what happened to Laurine Christenson, saying that she ran away from him and he didn't know where she was. However he is o be brought to Grayling today when he will be further questioned.

Last fall the body of a woman was found in a shallow grave near the Manistee river and for a time it was thought to be the body of the Christenson girl. The body bore evidence that the person had been murdered

HOTTEST EVER

This week's heat wave broke all previous records within the memory of our oldest residents. Monday the to 98 in the shade and Wednesday it reached one higher 99. At 6:00 a. m. Wednesday it was 75, which was the lowest for the 24 hours, and at about 3:00 p. m. it reached 99. These reports are taken from the records of the official government thermometer at the Fish Hatchery. Other places about town, where alcohol thermometers are used, the afternoon temperature on the Central Drug Store building, in the shade,

reached 109. Reuben S. Babbitt says that this has been the hottest weather he had bave seen an occasional hot night but never saw a period of hot weather like this before in my life,"

Well, it certainly was hot and did the best they could by seeking the coolest places about the home, which were far from comfortable

and many a one spent restless nights. All this followed a steady down-pour of rain beginning Saturday night and continuing to Sunday noon, during which time about 3 inches of

water fell.
Today—Thursday—is much cooler

and comfortable and it looks as tho the present heat wave had been

Conservation In Michigan.

Michigan sportsmen and conservawanted in Crawford county for en- Mio on June 25. The presence of at the Bay-Straits League meeting ticing Laurine Christenson, a 14 many state officials and prominent affairs of Michigan, attested the keen interest taken in conservation. Similar keen interest was taken by 1931 legislature. The law makers lispie of Detroit, Ben East and had before them much detailed formation directly bearing on this conservation problem. There was the U.S. census information secured in 1930. This showed that towns of 2,500 or more now held 56.2 per cent of all our people. In 1900 this was 40%; in 1910 it increased to 45.8, and in 1920 to 51.4 per cent. In 1930 the cities over 100,000 in population held 29.6 per cent of all our people

This trend from the country to

the cities accounts in part for the nine million acres of land now in the hands of the state. For some years now, Michigan has striven valiantly to put these millions of acres to good use. Burnt over areas naturally lend themselves only to r. forestration, game and fish preservation and recreation. The best and quickest return for this investment Although he had been posted all quickest return for this investment over Michigan this was the first time of time and money is found in the constantly increasing summer tourist business in Michigan. The legis lature has for some years now voted \$100,000 annually for advertising Michigan's summer recreational at tractions. The several tourist bureaus have to match this state fund. dollar for dollar, out of their private income. With this joint fund, the tourist bureaus flood the states to the east, south and west with at tractive booklets, setting forth the magic regions "where the summer trails begin." In my business travels over many of these states, have found folks away down in Dixieland around New Years, eagerly planning heir summer vacation in Michigan.

Where Summer Trails Begin. Anticipation is always one of life's greatest pleasures. And many of these southern folks knew more of Michigan's "tall and whispering pines and lakebound shores" than did some natives. Distance does lend enchantment. And if this was to be their first visit to Michigan, they listened much to those who had been north thermometer showed a high record "in the good old summer time." In of 95 in the shade. Tuesday it went any event, there was no denying the beauty of the northern Michigan country, as revealed by the photo lens. And the government weather stations amid the Great Lakes clearly set forth the difference, between July in Mississippi, which they know, and the Michigan they hoped and planned to know. Good roads made the entire trip a real joy and education. They could drive north by one historic route, and plan to return by another. They could see dynamic Detroit going up, and mammoth Chicago going home. The tourist maps clearly indicated Michigan's thousands of miles of hard surface road. The speed laws had been abolished. Petty delays and annoyances possible under the old speed laws, have been relegated to the realm of forgotten things. The

penalties for reckless driving, while and Crawford county at the big East improving the safeguards of the Michigan Water Carnival in Bay highways for the motorist. Michigan City. this year regulated the hours when truck drivers could use public highways with trucks and trailers (Continued on last page)

GOVERNOR AND MANY OTHER NOTABLES AMONG CROWD

One of the largest crowds sportsmen ever assembled in this part of Michigan at any one time tionists held their annual conclave at was the one that was in attendance held at Mio last Thursday. It is estimated that there were about 5,000 in all, with Governor Brucker fore most among the visitors, John Gilothers. Grayling was well represented by the Grayling band and many local citizens drove over for the day.

The day's program opened with a parade of three bands, with Grayling Citizens Band leading in full dress The Beaverton High School came next and then the Mio band prought up the rear. This started the ball rolling and from then on it ing all the time to keep the crowd

Fine speeches on conservation probems were given by the Governor and others and during the afteroon a sports program was carried out. Clarence Johnson of Grayling was lot of favorable comment for the fine way the entire program was carried

out. The one big feature was the ling and Mio bands, the latter win ning the big Brown jug. This is how it was told to us:

the first three men up got on, but were put out for leaving their bases before the ball had been hit. Johnson, manager, held his head, and watched his men until the third inning when he made change in the box. He put in Schmidt them down! how he mowed "Spike" and Cody let in two runs by dropping a fly each, and you should have seen our manager go after them for that. It looks like he is going to farm them out to Bucks siding but he has not said anything yet. Well we lost the BIG BROWN JUG, and you know how the Gray-

ling band goes after brown jugs.

The boys Grayling used included Cody, Frank Sales, Art Clark, Marius Hanson, Clarence Sherman and Sam Smith.

It was one big get-together and demonstrated that the Bay-Straits League is up and going.

THE QUEEN CONTEST

Following are the names of the young ladies whose names have been entered in the Queen's contest as submitted by the local contest chairan, Harold McNeven:

Fern Chalker. Annabelle Harris. Loretta Sorenson. Pauline Lietz. Alvce Mahncke. Betty Welsh. Elaine Reagan. Pauline Schoonover. Marie Brown. Emily Engel.

Irene Randolph

Margrethe relieved the distress for over 600,000 motor car accidents in withdraw their names they must do hundreds who sought its bathing 1930, with over 32,000 killed, and so before Tuesday night. The judg-beaches. The river too afforded much over 900,000 injured, speaks for it relief, and many resorted to auto self. With millions of motor cars, place at 2:00 o'clock Wednesday afrides. And the 1931 legislatures of selected, and later two from the five the several states have increased the will be chosen to represent Grayling

July Fourth ASK BEPT. TO

STATE NEWS BULLETIN

Utilities Commission and the Michthis week are attending the conference on uniform traffic regulations at French Lick, Ind. This is the second of a series of meetings intended to produce laws so that motorists and truck drivers will be subject to the same regulations on trips extending from one state to another.

In Michigan the Departmen State allowed motorists until March 1 to secure 1931 automobile license plates. In Ohio where the same limit was not in force, many Michigan Herb Gothro, Middle LaMotte, Spike motorists were inconvenienced, the McNeven, Howard Schmidt, Ollie department was informed, by police questioning regarding 1930 plates during the month of February. This question of reciprocal courtesy is being urged strongly by the Michigan delegation.

Besides Michigan the conference is being attended by representatives from Ohio, Wisconsin, Indiana, Illinois, Missouri, Kentucky, Tennessee Georgia and West Virginia. When an agreement has been reached or all questions, the legislatures of al states involved will be asked to adopt uniform laws.

Since the new automobile drivers eregistration and license law became effective this spring, the Departmen of State has returned \$4,410.45 to the various county and city license offices, records show. This refund represents the 15 per cent allowed he cities and counties by state law for receiving the applications and the department believes that because of the law, local examining agencies should not make an additional 25 cent

Earliest Book Clubs

At first book clubs had reprintings of rare books and manuscripts made. The enrilest of these clubs was Roxburghe club, founded in 1813, which imposed upon each member the printing of one book. The Ballantyne club, founded in 1823 by Sir Walter Scott, took for its field the reprinting of really important works.

ABOUT 75 ATTEND MEETING AT KALKASKA

Several of our citizens, including the members of the county board of supervisors, attended a meeting held in Kalkaska last week Friday, for the purpose of furthering the construction of highway M-76. State Highway Commissioner Dillman and Division Engineer Burridge and other highway officials were present.

The business matters were taken up at a "round-table" discussion following the dinner at the hotel. A number of possible routes between Traverse City and Kalkaska were discussed and there seemed to be a variety of opinions, but all were unanimous in the opinion that the route between Grayling and Kalkaska was of first importance. It would give the people of Grayling an outlet to the west that has been needed for many years, and also accommodate the hundreds of tourists who wish to make the western part of the state from this region. And the business interests of Traverse City with its great fruit industry would receive added patronage from this section o

The distance from Grayling to Kalcaska is 28 miles and the average driving speed is about 20 miles pe hour, and in some places even that speed could be called reckless. mileage to Traverse City is about 56

The State Highway Department has understood the need of this highway for the past ten years. It seem that one thing and another has stood Department of State, the Michigan in the way of putting it thru. However it does appear that after waitigan Department of Public Safety ing all these years that this project this week are attending the confer should be at the top of the list among those on the state highway program There were about 75 men in attendance at the meeting, representing Grayling, Kalkaska, Traverse City and other communities along highway.

UNDEUN JAIJ

Water your trees during this ho

Night time is the best time to do the watering, but the city ordin-ance prohibits watering after 9 p. m. The next best time is in the evening from six thirty or seven to nine

Turn the hose on slow and let the water run on each tree for three hours. If you have many trees a lot of hose will be necessary or a sprinkler which will reach several trees will do a fairly good job.

The average size tree will in hot weather use up about thirty barrels of water a day so don't try to skimp on water because a small amount of water will start rapid evaporation and then if there is not sufficient supply, wilting and ever leath may result

In exceedingly hot weather water-ing should be done every other night Take the tree watering seriously The soil heresbouts is very porous and therefore will not hold moisture very long so the need for plentiful often watering can not be neglected.

To the Depositors and Creditors of The Bank of Grayling:

All assets and property of the Bank of Grayling and its sole owner. Marius Hanson, are now in possession of the First National Bank of Ray City, Michigan, as assignee and trustee.

Of necessity, a few weeks will be required in which to complete an accurate audit and appraisal of the property, after which, however, a complete statement of the exact affairs of the Bank will be made to all creditors, depositors and interested parties.

In the meantime, our representatives will be in charge of the Bank, which has been opened for the purpose of receiving payments on any obligations owing to the Bank of Grayling. You must feel free to ask our representatives for any information you desire and we give assurance that all steps will be taken to conserve the assets of the Bank and will liquidate them so as to realize the largest pos-

First National Bank of Bay City

By Paul Thompson, Trust Officer.

There are more trout fishermen in Oscoda County in proportion to population than in any other county in the state and the fewest number are found in Sanilac. Three out of every ten residents of Oscoda county take out trout licenses.

The Fish Division of the Conservation Department has issued figures showing relative importance of trout fishing in the various counties of the These figures were based on state. a total resident trout license sales for 1930 of 87,680.

The largest number of licenses were sold in Kent County where agents reported 8,248. Marquette County was second with 5,878 licenses sold and Wayne was third with 4,109. Upper Peninsula residents purchase 26,718 trout licenses last year, an lower peninsula residents 60,962.

percentage of trout licenses, based on the total population of the county were purchased in counties in which trout fishing is best. Oscoda, Ros common and Crawford counties, for instance, have noted trout streams and it was in these three counties that the largest proportion of license were sold. In Oscoda county 303.5 licenses were sold for every 1,000 residents of the county. In Roscom non it was 300.4 licenses for every 1,000 people and in Crawford county it was 290.2. While a few fishermen from other counties might have pur chased licenses in these counties, it is not believed that the number is high enough to make any appreciable

difference in the figures.
St. Clair, Monroe and Sanilac Counties trailed at the end of the list with one license to every 1,000 people in St. Clair; eight-tenths one license in Monroe and five-tenths of one license in Sanilac, where but 14 licenses were disposed of during the year.

NEW HIGHWAY MAPS READY JULY 1ST

Changes in the Michigan Service Map issued by the Departments of ighest average standing this year in Highway and Conservation, necessary informatio delayed delivery of the maps and no more will be available until about July 1.

Early demands for the maps ex hausted the first delivery of 10,000. Application for maps will be filled just as soon as copies of the second printing are received.

Just Fifteen Years Ago. found America unusually appreciative knew the range to the British lines of our happy continental situation to the last yard. Airplane photo-Over 3,000 miles of ocean separated graphs gave both sides the terrain in us from the World war and Europe into this battle, while the French Over here, every American was still sent in 150,000 on the actual fightentialed to life, liberty and the puring front. All night long the British us from the World war and Europe. suit of happiness. In Europe the and French had sent over their prewar and its sheer necessities had liminary barrage. At daylight some robbed all the people in the warring thirty miles, went forward to break nations of these elementary rights. And the neutral nations anywhere in lines. Official source records today the wide world found some of these indicate that the Germans had dodged World war restraints and limitations. World war restraints and limitations Our great globe had become relatively smaller, as the genius of man created speedy steamboats and airplanes, telegraph, telephone and nov earn in the crucible of war, that what hurt one continent, affected all the time being, the financial and material resources of the great nations at war, could command in these neutral nations, sup plies, arms and munitions sorely need ed by the allies. So this 4th of July 1916, found our nation most prosper ous. Most folks were too busy cap italizing the misfortune of Europe to give much thought to the trend of things international. Some 275,000 itself into a siege operation. National Guardsmen found them selves in training camps, actively preparing to teach Mexico and Panche Villa that there was a limit even to American pacifism and pa The orators on this Independence Day were still quoting George Washington, warning his countrymen against mixing in the age old hates and fears of Europe and Asia. Presi-

within ten months.
The Allies Seek Victory. And the World war news on this 4th of July, 1916, so favored the allies that the happenings of the nex ten months were mercifully hidden from our celebrating Americans. For not care at all about French on July 1, 1916, the great British or the political systems of victory drive had started along the Europe. He will be benefit the stidule his specialty along Somme river front. For six months studying his specialty—along with Britain had been massing her guins, some more broadening subjects—ir Britain had been massing her guns, munitions and men along that front. college. And of course there still is For a few hours on May 30 and 31, found the youth who has not found 1916, the British war council had a bent for a specific vocation but feared a navy debacle in the battle off Jutland. But when the German fleet again retired behind the land defenses off Heligoland and Kiel, the British troops in France were given increased support. The crown princes' failure at Verdun helped along the British offensive. For the Germans had massed their guns, munitions and not belong in college and his parents shock troops on the Verdun front. are wasting their money in sending for a few days in February it look. him there." ed bad for Verdun and the allied But as the siege progressed with few worth while gains, and these at tremendous cost, the British could see in Verdun a real advantage for their own victory drive. Then the Russian offensive with two million men, from the Pripet marshes down to the border of Roumania, quickly rove back the 600,000 unwilling Austrian fighters, the German high com-mand had to rush to their aid with France. At the same time, the Austrian offensive against Italy by way of Bristaine, from which Berlin expected some helpful results, fell and all. This is a rare opportunity lines can operate at a profit without for Uncle Sam to win expressions of decreased efficiency, and without intake the offensive, to recapture the whole-hearted friendship. All that creased cost to the shippers. Clearly, the same along the Adige and Brenta he has to do is to buy them, like nothing but a little head work is regiver front. Salonika in Greece was any other commodity.

Americanism. But few indicated any

enseling Turkey and Bulgaria, while the Ressians were coming through Armenia, and another British force was coming from India toward Jerusalem, to wipe out Tewnsend's sur-render at El Amera on April 29, 1915. Roumania was expected to enter the war on the side of the allies. Germany had held in the west and won all through 1925 in the east. On May 31, 1916, her fortunes were at high tide. But now, in the first weeks

July, the tide turned.
Tommy At The Somme Battle. On July 1, 1916, the British at-tacked the German defensive posi-tions on the Somme river front. They had relatively more guns and muni-tions than the Germans had at Verdun. Along a front of twenty miles they sent over a barrage of shells of all sizes, mixed with gas poison, in unheard of numbers. On their right, for ten miles, the French were making a less noisy, but quite help

ful effort. Gen. Haig had three times as many men on the Somme, as the British had at the battle of Mons. He had ten times as many guns and twenty times as much ammunition But the Germans had warning of the coming attack. They held the very front line with machine gunners while their reserves rested secure in dugouts or on the reverse slopes of Independence Day, July 4, 1916, favorable ground. Their artillery detail. The British sent 250,000 mer through the enemy wire and trench British and French artillery stopped to allow the infantry to charge, the Germans came out of their dugouts with their light machine guns. At wireless. The whole world was to the same time German artillery laid down a counter barrage, preventing infantry support from going forward. In all military history there has never been a more prompt and bloody check than that which stopped the British between Commecourt and Fricourt. They lost more than 45,000

men in killed, wounded and captured

in a few hours. Slight gains on a

7 mile front netted 3,500 prisoners and some war material. Like Verdun

Somme hattle quickly resolved

"As I see it, the problem of college or not is strictly a personal one, de-pending on what the youth has or asn't in his head," writes Editor-in Chief Nelson Antrim Crawford in The Household Magazine for July. "Frankly," he continues, "there is no use sending a boy or girl to college dent Carranza and Mexico were warned against provoking a war unless he has brains. And by brains I mean intellect—ability in learning calamity. Americans were warned against letting their kinship for one and interest in learning. Our conception of learning has fortunately or the other of the warring nations in Europe overshadow their own broadened in recent years. We no longer confine it to mathematics for of our own entry into the World rhetoric, and the classics. We value engineering, agriculture, law, medicine, home economics, and scores of other more or less technical sub-

jects.
"A boy or girl may be deeply interested in one of these fields and not care at all about French poetry He will be benefited by college. And of course there still is found the youth who has not found who is interested in everything intellectual who really enjoys studying and thinking. Both of these classes will be tremendously benefited by college training. But in my estima tion, the young person who is not in terested in any vocation and who does not care for knowledge itself does

Naughty impulse That Was Foiled by Chivalry

ng the good stories told by Miss Jane Harrison, the famous lecturer in classical archeology at Newnham college, Cambridge, England, in her autobiography, "Reminiscences of a Stu-dent's Life," is this one:

Miss Harrison was for a time s magistrate, and on one occasion there appeared before the bench a certain prisoner who, it seems, had used pecu-Harly foul language. Instead of re-peating it the clerk had had a typed copy made, which was circulated on the bench, Miss Harrison says:

"The unknown to me has always had an irresistible lure, and all my life I have had a curiosity to know what really bad language consisted of. In the stables at home I had heard an occasional 'd-n' from the lips of a groom, but that was not very inform

"Now was the chance of my life. The paper reached the old gentleman next me. I had all but stretched out an eager hand. He bent over me in a

fatherly way and said: "I am sure you will not want to see this.

"I was pining to read it, but sixty years of sex subservience had done their work. I summoned my last blush, cast down my eyes, and said:
"Oh, no! No. Thank you so much.

"Elate with chivalry, he bowed and pocketed the script."—Kansas City

Islands Now American

Wake Island was acquired by the United States in 1898, as a result of the Spanish-American war, and was ceded to this country by Spain under the treaty of Paris, which ended the war. Midway islands are now a part of the Hawalian group, and under the jurisdiction of the Hawalian government. They were discovered by Capt. U. C. Brooks in the ship Gambier on July 5, 1859, and officially taken pos-session of in the name of the United States on August 28, 1867, by Captain Reynolds of the U. S. S. Lackawanna. Baker island was taken possession of in the name of the United States in 1839 by an American named Michael Baker, who first discovered it in 1832, Howland island was discovered by George E. Netcher in 1842, and offi-cially possessed in the name of the United States in 1857.

In Old Celtic Lands

Of all the interesting trips in France, Brittany should be included, especially the south const, with its sea resorts. This is the land of the "Pardons," those semireligious and semipagan festivals, when the villagers don the costumes and play the ceremonies which go back to the days of the dolmen and menhir of their wild moorlands. Paris—Nantes—Savenay—St. Nazaire is the route to follow, and the great Pardon centers are at Auray, St. Malo, Quiberon, Quimper, Daoulas, Plougastel and St. Anne-la-Palud, where the most important Par-don in Brittany is held on the last Satand Sunday in August. These old Celtic lands of France have a fascination different from the rest of France.

And He Fled

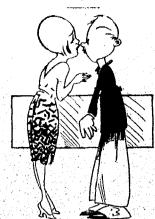

A golfer who has devoted the better part of the last five summers to the pursuit of the little white sphere was the happy recipient on his birthday of a set of expensive matched clubs. The first thing he did was to summon a companien in the sport and gloat (as only golfers know how to gloat over such an acquisition) openly before him.

exclaimed the friend tartly "that's a wonderful set of clubs. Nov all you have to do is to learn how to play the game." And he fied from the house followed by a flood of epithets (pronounced as only golfers know how pronounce them).—Springfield

Formal opening of an 138-bed hospital, built at a cost of \$240,000 in the United States Veterans Bureau Hospital group at Camp Custer, will take place July 14th. Bids on a new administration building to cost \$100, 000 will be opened in Washington July 7th. The present administration building will be converted into a hospital.—The Rose City Review.

Most men want to climb to the top, but continually changing ladders is not making progress. Concentrate on the Job you have. Learn it to the last detail, give it your best, and you will find that you are on the ladder to success. -- Git.

How One Woman Lost 47 Lbs.

In 3 Months and Feels Years Younger

Mrs. S. A. Solomon of New Bern, N. C. lost 47 lbs. in 3 months with Kruschen Salts. She reduced from 217 to 170 lbs. She feels much tronger, years younger, and pains in sides, back and abdomen that bothered her for years are all gone. She says she not only feels better but looks better as all her friends tell

"I shall never be without Kruschen

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Mac & Gidley's and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and it not joyfully satisfied—money back.

Cities of Sunny Spain Exalting one of the many charms of any country above the others is always dangerous, but in the case of Spain few would question the right of its clorious and varied monuments of architecture to a pre-eminent position. More fortunate in this respect than other Continental countries, its Gothie and Renaissance masterpieces of art are supplemented by the mosques and palaces left us a heritage to the nation by the Moorish occupation of southern Spain.

Romance and magic lie in the very mention of the Spanish place names and treasures of art-the storied Alhambra and the stately Alcazar of Granada, the Mosque of Cordoba, the Pillar of Zaragoza, the massive Cathedral of Burgos, with its levely towers; Seville's magnificent cathedral, the famed Giralda and the Alcazar, the immensity and beauty of the Monas tery of the Escorial, the richness of the facade of Santiago's cathedral, the University of Salamanca, the Roman aqueduct of Segovia, the arabesque treasures of Valencia (the city of the Cld), the royal palace of Madrid and the splender of Toledo's cathedral. All these and many more are gems of art and symbols of a rich history. Their beauty is rivaled only by their surprising variety.—Exchange.

Trace of Absurdity in

This Legal Phraseology The witness, being duly sworn, did affirm, assert testify and declare, with-out mental reservation, and neither impelled, persuaded, coaxed, cajoled,

Hamilton and Burr

The rivalry between Alexander Hamilton and Aaron Burr began when they were studying law. Alexander Hamilton completed his study and when the election of Burr and Jeffer resentatives. Hamilton, although disliking Jefferson, threw his influence in favor of him and secured the de feat of Aaron Burr. Still later when Burr ran for the office of governor of New York and was defeated, he blamed this defeat on Hamilton and challenged him to a duel.

End of Famous Pirate

Edward Teach, or Thatch (?-1718) an Anglo-American pirate, popularis known as Blackbeard, became widely known and feared for his robberle and atrocities throughout the Indies and along the coast of Carolina and Virginia. At Pasquotank, N. C., in 1718, he was attacked by two small sloops under the command of Lieutenant Maynard of the British navy, and by a successful ruse led to board the vessels, when he and several of his men were killed .- Wash ington Star.

Age-Old Tradition

The ground hog superstition is the American descendant of a tradition ages old. Its foundation is the general truth that a mild February is apt to be followed by change and a chilly spring. Our pagan ancestors were more familiar with the habits of hi bernating animals than they were with calendars, and the premature return of these creatures became a forecast bad weather. The notion persisted in Christian times and attached itself to Candlemas day-February 2.

Diplomatic

Bobby had been warned that pun ishment awaited him if he asked for candy during a visit to a neighbor with his mother.

The little fellow spled the appetising sweets, took the most tempting piece from the plate, saying: "What's a piece of candy like that good for, Mrs. Cr.

Playing the Game Through

By THOMAS ARKLE CLARK Dean of Men. University of Illinois.

\$000000000000000000000000000 "The water hole on John D. Rockefeller's private course," a newspaper

editorial says, with a one hundred and twenty yard carry, also

offers a chance to learn something Important John D. never used to play it. But the knowledge the hole was part of the course and that until he played. it he would not be

playing the game, irked him. He practiced long and hard until he was its master. Now he shoots that hole regularly and likes it. Men often like best that which has given them the hardest struggle." One should not be satisfied until be

plays the game through. One hears occasionally from fellows who have never even ridden a sawhorse and who would probably fall off if they attempted it, rather caustic criticism of the horsemanship of the prince of Wales. They cite as proof of their statements the many accidents he has had and the narrow escapes from serious injury. The real facts are, however, that he is an unusually fearless and daring rider. Hazards which less courageous and skillful equestrians would avoid he takes a chance on. He never rides around a ditch or a fence because it presents difficulties ahead to the finish and takes the consequences even if that be a tumble It is this sportsmanlike quality which makes the prince of Wales the best loved man in England. He doesn't hesitate at hazards.

Walsh was pretty far behind the water was precy in bounds in the mile run in the full handi-cap as was also Harding. Harding saw that he had no change of winning and dropped out and threw himself down on the grass without finishing the last lop.

"What's the use?" he asked when some one inquired why he sidetracked at that point in the race. "I was outdistanced and I saw no good reason for wearing myself out."

Not so Waish. He pushed on until

the end took the ridicule of the crowd stoically. He believes in playing the game but even if his score is not a good one. Some day he'll do better; some day if he persists he will come

in with the bunch or ahead of it. (@. 1931, Western Newspaper Union.)

Resolution offered by S. A. Dyer.

Supervisor: Whereas, the Bank of Grayling, Michigan, was a depository for the funds of Crawford County.

present has shown that his interests are divided between representing the Bank of Grayfing and the County of Crewford. The County Clerk was instructed to call the Attornay General's office at Lansing to accertain the proper course of procedure. The County Clerk reported back to the Board that the Attorney General's department requested a committee from this Board to meet at his office and present the facts. The Chairman appointed S. A. Dyer, Arthur Skingley, and J. E. Kellogg to go to Lansing and get counsel. The Committee went to Lansing and presented the facts to Mr. Eger, representing the facts to Mr. Eger the facts in the facts to Mr. Eger, representing the Attorney General's department who advised that, owing to the dual interests of the Prosecutor in this matter, the resignation of Mr. Insley be requested at once. Further, that the Board pass a resolution start-ing proceedings against the bonds-men, represented by their Chairman.

Committee on Ways and Means. Signed: S. A. Dyer, Chairman. J. E. Kellogg. Arthur Skingley.

Moved by Murphy and supported hy Nelson that we accent the report of the Committee on Ways and Means and that it be accepted and made part of this record. Vote taken. All members voting yea. The motion carried.

Rufus Edmonds, Chairman.

Tuesday Session

Mecting of the Board of Supervisors for the County of Crawford continued and held at the Court
House in the Village of Grayling on Tuesday, the twenty-third day of June, A. D. 1931.

The Board was called to order by Chairman Rufus Edmonds.

NEW DIVING BEVICE IN SUB-

will be facilitated by the use of a new device being perfected and scheduled month, according to the Navy Recruiting Station, Detroit. Capable of being used under a wide range of conditions and of accommodating 18 members of a submarine crew at one time, this latest device is believed to have completed the program undertaken after the sinking marine "S-4" in Cape Cod Bay a few years ago.

Original Phrase in Dispute

The original phrase "mad as a hatter" was probably "mad as an adder," according to Crowell's Handbook for Readers and Writers, but evidence is lacking. The phrase was popularized by Lewis Carroll in "Allee in Wonderland," but was well known earlier and was used by Thackerny in "Pendennis" in 1849

Southpaw Marksman

This is Motorcycle Policeman Galrie Upshaw of Pasadena, Calif., southpuw marksman who has again been chosen a member of the United States rifle team for the international small bore championships to be held at Bisley. England, in July. Upshaw has been a member of the Dewar team for the past four years of international competition, and chalked up a 398 out of possible 400 in the 1929 shooting to equal the records. He has won 65 medals and many other trophies in various rifle matches.

Referred to October Session

Inside Information

Put large buttons and not too many of them on small children's clothes so they can learn to dress themselves.

All the arguments and persuasions in the world won't make some persons like spinach if it is "mushy" and brown, which are signs of overcook-Cooked spinach should be green and chewy which makes it attractive to the eye and pleasant to the palate.

Fruit stains on white napkins and ablecloths can usually be removed by pouring boiling hot water on the stained spot after stretching the material over a bowl. The teakettle should be held three or four feet above the cloth. Don't use soap on fruit stains, for the alkali in the soap sets the stains, especially those of red and purple fruits.

Ham should be simmered, never actually boiled. Cover with water and keep water over it. Cook it gently for 25 to 30 minutes to the pound until it is tender, and if possible, let it cool in the broth. To give an attractive finish, mix 2 cups of brown sugar and 3 cups of fine soft bread crumbs, 1 teaspoon of prepared mustard, and cider or vinegar enough to moisten. Spread the paste over the fat covering of the ham, after emoving the rind, and stick whole long-stemmed cloves into the surface. Bake for 10 minutes in a hot oven (500 degrees F.).

Practically Wiped Out

The public health service says that there has not been a case of yellow fever since 1905.

Apparently Beggar Had

Found Ruse Profitable New Yorker thought he had experienced every form of panhandling extant. Recently, however, he visited Washington and learned a new wrinkle in extracting money from the

pockets of the public. Walking through a public square in the afternoon with one of the numer-ous judges who lives in the capital, a man approached. In his arms was baby; at his side was his wife and walking in front were two more chil-dren not over six years old. Holding a half-dollar up between

his finger and thumb, the man with the baby muttered to the New Yorker as he passed: "Won't you help me pay my rent?" The visitor dug into his pocket for a quarter, but the judge stopped him, "You don't know if this man is

worth helping," he said. "We have a community chest in Washington to take care of such cases." As the New Yorker argued the point with the judge, the man and his family disappeared.

A few minutes later a taxicab swept past and as the New Yorker jumped back to avoid it he saw, comfortably driving home, the man who had pleaded for assistance with his rent, and the whole family accompanying him.--New York Sun.

People of Asia Minor First to Breed Mules?

The mule, which is the product of t cross between a mare and a male ass. has been bred as a beast of burden since early times. The inhabitants of Mysia, Paphiagonia and Capadocia, an-cient countries in Asia Minor, are said to have been the first people to raise mutes. This, while not definitely established, is borne out by Homeric tradition. Males were bred in large numbers by both the ancient Greeks and Romans. The Jews were forbid-den to breed mules by Levilleus 18:10, which declares, "Thou shalt not let thy entile gunder with a structus kind.

Evidently, however, the hestelles dither imported the appride or broke the law, because unity in their history they persented large bushess of mules, which is a hilly country like Palestine were preferable to horize and asses for many perposes. It is probable that is none cases moving in cusplered in English translations of the BMs often "how would be here."

MICHIGAN AFFAIRS

(Continued from Page 1)

provided a uniform road sign system for townships and villages, under the direction of the state highway Michigan's summer trails will be safer than ever before And more beautiful. For the experts on landscaping in the state highway department are aiding all nature in greeting our summer visitors, dressed

up in our best.

Michigan's Conservation Hopes. igan will find much highway building comain trunk lines. But the detour roads will be safeguarded and marked like main thoroughfares. The word "detour" has lost its terrors hereabouts. Primitive forests wild life, lakes and streams are the ly from the large cities. Forest fires ere less menacing than last year. The lines within our 13 state forests, besides safeguarding commercial forest

summer delight of tourists, espeweather has been more favorable. Michigan now has 1.423 miles of fire holdings for the common good. These fire lanes must be continually har rowed to make them really effective. Last year these tractors covered miles in this fire lane work Many observation towers gave warning of incipient forest fires. This year the conservation department has had its expected income reduced by Gov. Brucker to a point where the force of fire fighters will have to be reduced, and field work generally consolidated. The original requests included: land division units \$27, 700; forest fire division, \$283,300; geological survey, \$61,895; reforestration, \$142,100; state parks, \$97,776; fisheries, \$175,252; land economic survey, \$44,528; damage done by bears, \$8,030; stream control, \$21,kinac Island, \$29,854, or a total of \$906,423.55. To save the state property tax, Gov. Brucker hoped to get a rod license of \$1 from every fisherman, with higher license for trout and hunting but the legislators claimed the rod fishermen received no aid from the conservation department, hence it was a nuisance tax undesired. The legislature did appropriate \$1,042,592.76 for the various divisions of Michigan's conservation department in House Bill

VOID DROUGHT EFFECTS BY

KEEPING PLANTS DRYER

Wet fields and marshy spots are often the first to show the effects of dry weather. A lawn that is sprinkled every day suffers more, if the family goes on vacation and neglects the sprinkling, than a near-by lawn that has had to depend on rain for most of its moisture.

Last year's long drought emphasiz-

ed this, both in town and country This results from the general habit and Mrs. John Orr. all of Saginaw, of plants to take life easy and to and Mrs. Lewis McGerven of Chicago develop along lines of least resistance. In a marsh or a wet field the surface moisture is almost always adequate, and roots develop near the surface because they do not need to seek moisture and plant food in the lower levels. Ordinarily roots do not grow well in water-logged soil. When the surface dries out, the plant may he unable to tap the water in the ubsoil. Similarly the well-sprinkled lawn develops a root avstem just beneath the surface, and if the upper layer of soil dries the lawn may soon

bare and brown. In the wet or marshy fields the emedy is paradoxically, to fight drought by keeping the fields dryer, usually by drainage which will favor a deeper rooting. On the lawn, also, the remedy is to apply less waterless frequently but more water at a Gatty hopped off, Otto Hillig and Holtime, enough to soak the soil to a ger Hoiris started from Harbor Grace depth of several inches. Then, when

DRESIDENT HOOone year moratorium on reparations and war debts probably will go through unless rance blocks it. Hailed with cheers by most of the world, the proposition was reeived rather coldly and suspiciously by the French. Ambassa-dor Walter E. Edge

got busy with the aders in Paris and leaders worked hard to gain their acceptance of the plan, but the best he could obtain from the cabinet was a note carry ing modified approval. This, forwarded through him to Washington, lauded Mr. Hoover's initiation but insisted that Germany must continue payment of the "unconditional" annuities as provided under the Young plan, though France would waive the conditional payments for a year inasmuch as America will waive war debt payments for the same period. The conditional annuities France is willing to turn back to Germany through the Bank of International Settlements if the money is needed.

Great Britain and Germany had al ready given the plan their full ap-proval, and Mussolini sent word that Italy accepted it unequivocally. Belglum, which is as jealous of her reparations as France, was expected to fol-low the French lead.

Secretary of the Treasury Mellon gan conversations at the Quai d'Orsay in the hope of reconciling the plans of Mr. Hoover and of the French cabinet.

The President early was assured of the support of the lenders of both parties and all factions in congress, and during the week he canvassed the entire membership of both houses in would take in the matter. The result was not made public but it was presumed he had assurances of far more than enough votes to put over what ever legislation will be necessary.

There is no pretence that Mr. Hoover's plan is wholly altruistic. It is designed to help bring to an end, the existing depression by reviving trade and business and if it succeeds in this, the United States would be expected to reap its fair share of the ward of the proposition was at least temporarily beneficial was shown by the new buoyancy in the stock ex-

PROVIDED the proposed reparations 5.00 and war debt moratorium really the business tide to-ward prosperity, it 60.00 would be a profitable investment for the United States, Such 50.00 is the opinion of Ogsecretary of the treasury. He asserted in Washington that the

collect next year if the plan goes through would be more than made up in a short time if it brought about a return of better times.

"From indications thus far," Mr. Mills said. "it appears that the world at large looks upon the American pro-posal as a hopeful business factor. Stocks have risen in the big exchanges. With better business the tax

receipts of the trensury will increase."

Mr. Mills declined to predict whether it will be necessary to recommend to supply revenues for operating the government during the next fiscal year. He pointed out, however, that a postponement of war debts payments would cut the treasury receipts during the next year by more than \$250,000,000.

This year's deficit, on the basis of income tax returns, probably will not greatly exceed \$850,000,000.

Up to the close of June 19, total expenditures chargeable against ordinary receipts were \$4,116,605,000, as compared with an estimated expenditure for the fiscal year of \$4,335,000,

If business conditions improve treasury officials anticipate an immediate raise in the income tax and other ficials said that they were hopeful better financial conditions abroad would be reflected in American for-

First of this year's crop of American transatiantic flyers to hop off from Harbor Grace, Newfoundland were Wiley Post and Harold Gatty in the single motored cabin plane Winnle Mae. Their destination was Berlin, and though they did not make the flight to the German capital without stop, they did succeed in getting safe ly across the ocean. They landed at the Senland airdrome near Chester, England, after circling over the city of Bangor, Wales. Post was the pilot of the plane throughout the flight and Gatty acted as navigator. They heard from only once on the way across, the liner Drottninghoim pick set out to make the elecult of th globe in ten days. They remained at Chester only long enough to refuel and eat lunch, and then flew to Berlin and thence onward toward Mos-

Only a few hours after Post and in a big, heavily loaded Bellanca plane the surface water evaporates, the with the hope of making a nonstop roots of the grasses push downward flight to Copenhagen, Denmark. But

that 9,000 organizations of the Duce's followers have been given the task of persecuting him. However, he de clared his faith in providence and said the bishops in Italy and informed him that there was increasing unrest in the country because of the "intolerable surveillance, odious esplonage secret reports and continuous men

Mussolini in his latest note to the Vatican was rather conciliatory, but the duce was firm in his attitude to ward the Catholic Action societies. He left the foudamental issue which has always existed as to the respective rights of the church and state in edu cational matters exactly as it has al-

M EXICO'S troubles with the Cath-olic church have been renewed by the action of the Vera Cruz state government in restricting the number of priests conducting services to one every 100,000 inhabitants. Priests in Mexico are warning their congregations that another religious conflict is likely. They said priests in Vera Cruz had been harshly treated, and that a few had been killed.

These remarks are believed to have been inspired by a riot at Huatusco, in the state of Vera Cruz, during the burial of Father Felipe Cano, who dled from injuries he had sustained in a clash between liberals and Catholics at Chavaxtla.

S PAIN is settling

under the republican

rule, but the subjec

of the status of Cata-

down to normality

lonia is not yet set tled. Alexander Lerroux, minister of forelgo affairs, went to Borcelona, center of the stormy province the other day to sound out the intentions of Col. Francisco Macia

Bourbon

and his Catalan following who demand rather more than autonomy for Catalonia. It has been considered likely that Lerroux will be the first premier under the new con which will be drafted by the constituent cortes.

Restoration of the Spanish mon-archy, with himself on the throne, is the ambition of Don Jaime de Bourbon, the Carlist pretender, who is now sixty years old but vigorous and full of schemes. It is reported that Gen. Martinez Anido, his chief military aid, has gathered an army in northern Spain and expects to overthrow the republican regime. But pretenders seldom have any luck in such ventures, and the government at Madrid probably isn't worried by this threat.

FIAMES starting on a wharf at St. John, N. B., swept the waterfront and practically rulned the entire western section of the port. The property damage was believed to exceed \$10,000,000, and several lives were lost. The conflagration raged for hours, destroying docks, grain elevators and several steamships. The greatest loss was suffered by the harbor commission, federal property valued at \$3.

FOR the first time in the history of Ohio a woman is to be electro cuted. At Jefferson, Mrs. Julia Maude Lowther of Ashtabula, twenty-three years old, was sentenced to die in the electric chair at the state peni-tentiary on October 2 for the murder Clara Smith, her employer and the wife of the man she loved. Smith twice convicted of complicity in the killing, also is under a death sentence

FOR the first time in its history Rotary International has elected a European as president. At the annual convention of the organization in Vienna the delegates selected Sydney Woodroffe Pscall of London, England. to succeed President Almon E. Roth of California. Rufus Fisher Chapin of Chicago was re-elected for his eight-eenth term as treasurer.

CHILE, through its minister of foreign affairs, has invited the forelgn ministers of all the Pan-Amer-Ican nations to attend a conference on the existing financial crisis, to seek methods by which their governments may co-operate to prevent a complete mercial and economic breakdown The United States is included in the invitation and presumably will be represented by an official observer. The date and place are not set.

Miss Mamie Thompson of Gaylord has been visiting her aund Mrs. Wm. Woodburn and family.

A surprise shower was given in honor of Mrs. Henry Smith Tuesday oride, was Lila Thompson of Gay-

Miss Dorothy Anderson of Fling has been visiting her parents Mr. and Mrs. John Anderson who are driving her back to Flint on Wednesday. NO ROD LICENSE REQUIRED EX-

CEPT FOR TROUT

Residents of Michigan are not reuired to have a license to take any species of fish in season, except Brook, Brown and Rainbow trout. Recent legislative discussion concern ing a general rod license led many Italian Fascism, instead of being people to the impression taht Michigan now has such a license. The no far as heeds for fishing licenses are concerned remain as they have in the past.
The Fish Division of the Conserva-

the faith, declared in so many words that he and Premier Mussolial were tion Department has been receiving scores of inquiries as to whether a impossible even to start talking of agreements. He asserted that the license is necessary to fish for other church is being personned in Italy species than trout.

At the Red Arrow Auction, with each dime's worth you win, A dollar's worth of fun is also thrown in.

PLANS AND INSTRUCTIONS COPYRIGHTED AND PATENTED, RED ARROW SERVICE CO., SPRINGFIELD, ILLINOIS

you take out big savings every year ANY HOME OWNER CAN DO IT!

THE secret of this trick, of course, lies in the Acme Quality House Paint can. You simply put 50c to 75c more per gallon into NEW ERA House Paint, as compared to ordinary house paint. You get 30% greater covering - therefore use fewer gallons. You get greater weather resistance. Therefore you get five years of service instead of three. In other words, NEW ERA House Paint costs less by the job by the year. And you have the superior colors and finish of an Acme Quality NEW ERA Paint job in addition. Let us submit the actual savings possible on your house. See these interesting economy figures before you buy any paint.
